Choose Peace

Be Present to Love — Out of many, we are One.

Love yourself, Love others — when we care about people, *all people*, and we choose to Love them, *we can change the world*. Live to Love!

Choose Gratitude. Look for the good — in people and situations. What can you learn? How can you grow? HOPE is Having Only Positive Expectations. Choose a Positive focus. Live expectantly and thankfully! Be grateful!

Work hard. A Life of Self-Discipline built by the Inner Coach, the Voice within pushing you to Rise High shapes you to be your Best Self. Dig deep. Listen up. You can do it!

Forgive, Forget. Forgive, Forget. Forgive, Forget. That's it! Forgiveness frees your heart from bitterness leading you forward toward a heart of Love. Together, we can live forgiving and forgetting, concentrated on being Mountaintop Leaders.

Live with Blind-Sight. Look for people's Potential — forget focusing on Faults! See Good, inspire Greatness! As we Give Life, we'll find the Path to Awesomeness.

Squash judgment. Get rid of pride. Choose Magnanimosity! Life is better when we Live it together. Mountain climbers know the secret to Living in the Leader Zone — it's to Model and Meld, becoming our Best Selves Together.

Words matter. They build up or tear down, encourage or defeat. Stealing someone's Life Potential is robbing ourselves, as everyone is meant to be a contributor in the world. Express Love, Give Life, Bring Hope, Add Value. In this you'll be an ELGLBHAV Leader!

Peace. It's you and me living in Contentment and Tranquility, Giving Ourselves to Live as Love! Realizing our Best Self Potential, we make the world all it's intended to be!

One People with One Goal — Love that builds us into the More Perfect Union! Love within us, *heard and followed* will make us One in Unity, *The Beloved Community!*
