Heart of the Lesson* (The heart-change purpose as it relates to the overall Mission and Vision.)

By establishing a Common Vision *and* a Common Framework for Living, we can work together to fulfill or *actualize the Vision*. Individual *and* collective moral development is necessary in order for us to Be the Beloved Community — to Be People of Peace and Agape Love.

The Beloved Community is a people of different races, nationalities and even religions who join together as a ‘Nation of Nations’ focused on Living United. It is a people who Choose to live Peacefully and Purposefully, Seeking Prosperity for all in spite of significant differences.

As Mountain climbers our job is to lead forward as Peacemakers ‘Modeling and Melding’ ourselves as *The Beloved Community*.
